

## Accepted Manuscript

Title: Exergy-aided Environmental Sustainability Assessment of Ethylene Dichloride-Vinyl Chloride Production Process

Author: Ali Ghannadzadeh

PII: S0263-8762(17)30428-8  
DOI: <http://dx.doi.org/10.1016/j.cherd.2017.08.016>  
Reference: CHERD 2791

To appear in:

Received date: 14-1-2017  
Revised date: 15-7-2017  
Accepted date: 20-8-2017

Please cite this article as: Ghannadzadeh, Ali, Exergy-aided Environmental Sustainability Assessment of Ethylene Dichloride-Vinyl Chloride Production Process. Chemical Engineering Research and Design <http://dx.doi.org/10.1016/j.cherd.2017.08.016>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

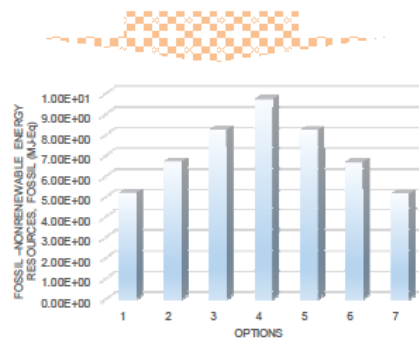

Exergy-aided Environmental Sustainability Assessment of Ethylene Dichloride-Vinyl Chloride  
Production Process
