Accepted Manuscript

Title: Absorption-hydration hybrid method for ethylene recovery from refinery dry gas: Simulation and evaluation

Author: Xingang Li You Li Luhong Zhang Hong Li

PII: S0263-8762(16)00036-8

DOI: http://dx.doi.org/doi:10.1016/j.cherd.2016.01.022

Reference: CHERD 2161

To appear in:

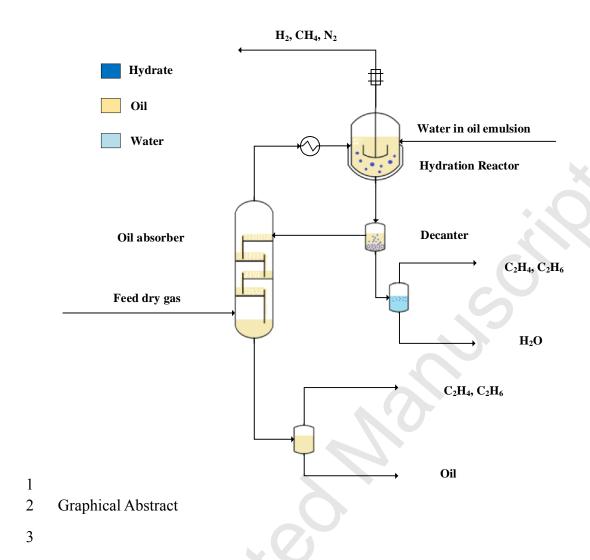

Received date: 18-8-2015 Revised date: 14-12-2015 Accepted date: 19-1-2016

Please cite this article as: Li, X., Li, Y., Zhang, L., Li, H., Absorption-hydration hybrid method for ethylene recovery from refinery dry gas: simulation and evaluation, *Chemical Engineering Research and Design* (2016), http://dx.doi.org/10.1016/j.cherd.2016.01.022

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
