Accepted Manuscript

Title: Approximate design method for reactive liquid extractors based on thermodynamic equilibrium correlations

Author: María de los Ángeles Olán-Acosta Edgar O. Castrejón-González Juan F. Javier-Alvarado Vicente Rico-Ramírez

PII: S0263-8762(16)00058-7

DOI: http://dx.doi.org/doi:10.1016/j.cherd.2016.01.033

Reference: CHERD 2172

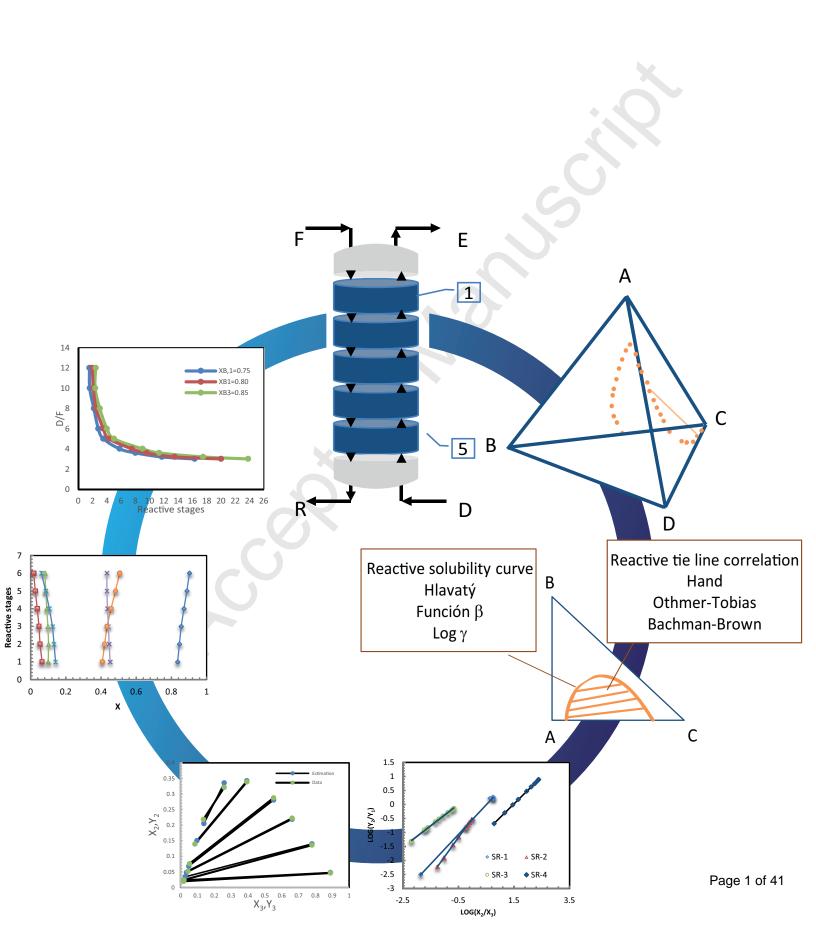

To appear in:

Received date: 5-4-2015 Revised date: 31-12-2015 Accepted date: 29-1-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
