

## Accepted Manuscript

Title: Urban biorefinery for waste processing

Author: Sireethorn Satchatippavarn Elias  
Martinez-Hernandez Melissa Yuling Leung Pah Hang  
Matthew Leach Aidong Yang

PII: S0263-8762(15)00374-3  
DOI: <http://dx.doi.org/doi:10.1016/j.cherd.2015.09.022>  
Reference: CHERD 2033

To appear in:

Received date: 19-6-2015  
Revised date: 14-9-2015  
Accepted date: 29-9-2015

Please cite this article as: Satchatippavarn, S., Martinez-Hernandez, E., Hang, M.Y.L.P., Leach, M., Yang, A., Urban biorefinery for waste processing, *Chemical Engineering Research and Design* (2015), <http://dx.doi.org/10.1016/j.cherd.2015.09.022>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

#### Highlights

- Urban biorefinery concept for waste processing is proposed
- Superstructure optimisation was applied for three scenarios in Bangkok case study
- Urban biorefinery enable resource looping and may increase resource efficiency
- Local demand targets and no incentives for electricity promote circular economy
