

## Author's Accepted Manuscript

Scalable graphene composite membranes for enhanced ion selectivity

Siyang Li, Jung-Hun Lee, Qicheng Hu, Tae-Sik Oh, Ji-Beom Yoo

PII: S0376-7388(18)30847-0  
DOI: <https://doi.org/10.1016/j.memsci.2018.07.005>  
Reference: MEMSCI16284

To appear in: *Journal of Membrane Science*

Received date: 28 March 2018  
Revised date: 25 June 2018  
Accepted date: 1 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
