

Author's Accepted Manuscript

Synthesis of titania nanoparticle-dispersed hybrid membranes from allyloxytitanium and phosphonic acid derivatives for fuel cell

Naoya Ozawa, Koichiro Hayashi, Wataru Sakamoto, Toshinobu Yogo

PII: S0376-7388(18)30664-1
DOI: <https://doi.org/10.1016/j.memsci.2018.05.072>
Reference: MEMSCI16212

To appear in: *Journal of Membrane Science*

Received date: 11 March 2018
Revised date: 26 May 2018
Accepted date: 30 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Synthesis of titania nanoparticle-dispersed hybrid membranes from allyloxytitanium and
phosphonic acid derivatives for fuel cell**
