

Author's Accepted Manuscript

Ceramic-supported thin film composite membrane
for organic solvent nanofiltration

Lingling Xia, Jian Ren, Marcus Weyd, Jeffrey R.
McCutcheon

PII: S0376-7388(18)30797-X
DOI: <https://doi.org/10.1016/j.memsci.2018.05.069>
Reference: MEMSCI16209

To appear in: *Journal of Membrane Science*

Received date: 23 March 2018
Revised date: 3 May 2018
Accepted date: 29 May 2018
