

## Author's Accepted Manuscript

The enhanced hydrogen separation performance of mixed matrix membranes by incorporation of two-dimensional ZIF-L into polyimide containing hydroxyl group

Seungju Kim, Ezzatollah Shamsaei, Xiaocheng Lin, Yaoxin Hu, George P. Simon, Jong Geun Seong, Ju Sung Kim, Won Hee Lee, Young Moo Lee, Huanting Wang

PII: S0376-7388(16)32231-1  
DOI: <https://doi.org/10.1016/j.memsci.2017.12.022>  
Reference: MEMSCI15793

To appear in: *Journal of Membrane Science*

Received date: 11 November 2016  
Revised date: 7 December 2017  
Accepted date: 9 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
