

## Author's Accepted Manuscript

Controlling molecular weight cut-off of PEEK nanofiltration membranes using a drying method

João da Silva Burgal, Ludmila Peeva, Patrizia Marchetti, Andrew Livingston

PII: S0376-7388(15)30041-7  
DOI: <http://dx.doi.org/10.1016/j.memsci.2015.07.012>  
Reference: MEMSCI13831

To appear in: *Journal of Membrane Science*

Received date: 23 February 2015  
Revised date: 24 June 2015  
Accepted date: 4 July 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Controlling molecular weight cut-off of PEEK nanofiltration membranes using a drying method

*João da Silva Burgal, Ludmila Peeva, Patrizia Marchetti, Andrew Livingston\**

Department of Chemical Engineering and Chemical Technology, Imperial College, Exhibition Road, London SW7 2AZ, UK

## **Corresponding Author**

\*Andrew Livingston, [a.livingston@imperial.ac.uk](mailto:a.livingston@imperial.ac.uk), Department of Chemical Engineering and Chemical Technology, Imperial College, Exhibition Road, London SW7 2AZ, UK

## **Author Contributions**

The manuscript was written through contributions of all authors. All authors have given approval to the final version of the manuscript.

## **Funding Sources**

This work was funded by the Novartis Pharma AG, Massachusetts Institute of Technology sub-award agreement No5710002924. The authors would like to acknowledge EPSRC for the financial support under the project EP/J014974/1 entitled Molecular Builders: Constructing Nanoporous Materials

## **KEYWORDS**

Poly(ether ether ketone); Organic solvent nanofiltration; drying method; control of molecular weight cut-off; statistical analysis.
