Proper accounting of mass transfer Resistances in forward osmosis: Improving the Accuracy of model Predictions of structural parameter

Nhu-Ngoc Bui, Jason T. Arena, Jeffrey R. McCutcheon

[www.elsevier.com/locate/memsci](http://www.elsevier.com/locate/memsci)

PII: S0376-7388(15)00098-8  
DOI: <http://dx.doi.org/10.1016/j.memsci.2015.02.001>  
Reference: MEMSCI13463

To appear in: *Journal of Membrane Science*

Received date: 22 September 2014

Revised date: 17 January 2015

Accepted date: 3 February 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Proper Accounting of Mass Transfer Resistances in Forward Osmosis: Improving the Accuracy of Model Predictions of Structural Parameter
