Application of anion exchange membrane and the effect of its properties on asymmetric membrane capacitive deionization

Junjun Chang, Kexin Tang, Hongbin Cao, Zhijuan Zhao, Chunlei Su, Yuping Li, Feng Duan, Yuxing Sheng

PII: S1383-5866(18)31551-X
DOI: <https://doi.org/10.1016/j.seppur.2018.06.063>
Reference: SEPPUR 14717

To appear in: *Separation and Purification Technology*

Received Date: 5 May 2018
Accepted Date: 25 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Application of anion exchange membrane and the effect of its properties on asymmetric membrane capacitive deionization
