A hybrid method for the removal of fluoride from drinking water: Parametric study and cost estimation

M. Changmai, M. Pasawan, M.K. Purkait

PII: S1383-5866(18)31488-6
DOI: <https://doi.org/10.1016/j.seppur.2018.05.061>
Reference: SEPPUR 14647

To appear in: *Separation and Purification Technology*

Received Date: 1 May 2018
Revised Date: 15 May 2018
Accepted Date: 29 May 2018

Please cite this article as: M. Changmai, M. Pasawan, M.K. Purkait, A hybrid method for the removal of fluoride from drinking water: Parametric study and cost estimation, *Separation and Purification Technology* (2018), doi: <https://doi.org/10.1016/j.seppur.2018.05.061>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A hybrid method for the removal of fluoride from drinking water: Parametric study and
cost estimation**
