Chromatographic Fractionation of a Ternary Mixture with an SMB Cascade Process: The Effect of Ion Exchange Resin Cross-Linkage on Separation Efficiency

Jari Heinonen, Markku Laatikainen, Tuomo Sainio

PII: S1383-5866(18)30052-2
DOI: <https://doi.org/10.1016/j.seppur.2018.06.016>
Reference: SEPPUR 14670

To appear in: *Separation and Purification Technology*

Received Date: 5 January 2018
Revised Date: 22 May 2018
Accepted Date: 5 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Chromatographic Fractionation of a Ternary Mixture with an SMB Cascade Process: The Effect of Ion Exchange Resin Cross-Linkage on Separation Efficiency
