EFFECT of polyacid dopants on the performance of polyaniline membranes in organic solvent nanofiltration

Junjie Shen, Salman Shahid, Adem Sarihan, Darrell A Patterson, Emma AC Emanuelsson

PII: S1383-5866(18)30285-5
DOI: <https://doi.org/10.1016/j.seppur.2018.04.034>
Reference: SEPPUR 14530

To appear in: *Separation and Purification Technology*

Received Date: 23 January 2018
Revised Date: 27 March 2018
Accepted Date: 14 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of polyacid dopants on the performance of polyaniline membranes in organic solvent nanofiltration
