

## Accepted Manuscript

Efficient electrochemical recovery of fine tellurium powder from hydrochloric acid media via mass transfer enhancement

Wei Jin, Junling Su, Shifu Chen, Ping Li, Michael S. Moats, Govindhan Maduraiveeran, Hong Lei

PII: S1383-5866(17)33711-5  
DOI: <https://doi.org/10.1016/j.seppur.2018.04.026>  
Reference: SEPPUR 14522

To appear in: *Separation and Purification Technology*

Received Date: 12 November 2017  
Revised Date: 13 March 2018  
Accepted Date: 10 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Efficient electrochemical recovery of fine tellurium powder from  
hydrochloric acid media via mass transfer enhancement**
