Dynamic Cross-Flow Electro-Fenton process coupled to anodic oxidation for wastewater treatment: Application to the degradation of acetaminophen

Hugo Olvera-Vargas, Jean-Christophe Rouch, Clémence Coetsier, Christel Causserand

PII: S1383-5866(18)30116-3
DOI: <https://doi.org/10.1016/j.seppur.2018.03.063>
Reference: SEPPUR 14483

To appear in: *Separation and Purification Technology*

Received Date: 10 January 2018
Revised Date: 19 March 2018
Accepted Date: 27 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Dynamic Cross-Flow Electro-Fenton process coupled to anodic
oxidation for wastewater treatment: application to the
degradation of acetaminophen**

Hugo Olvera-Vargas^a, Jean-Christophe Rouch^a, Clémence Coetsier^{a*}, Christel Causserand^a
