Modeling of the separation of lactic acid from an aqueous mixture by adsorption on polyvinylpyridine resin and desorption with methanol

José Antonio Delgado, Vicente Ismael Águeda, María Ángeles Uguina, Álvaro García, Jorge Matarredona, Ruben Moral

PII: S1383-5866(17)33593-1
DOI: <https://doi.org/10.1016/j.seppur.2018.02.047>
Reference: SEPPUR 14411

To appear in: *Separation and Purification Technology*

Received Date: 6 November 2017
Revised Date: 22 February 2018
Accepted Date: 25 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**MODELING OF THE SEPARATION OF LACTIC ACID FROM AN AQUEOUS
MIXTURE BY ADSORPTION ON POLYVINYLPIRIDINE RESIN AND DESORPTION
WITH METHANOL**

José Antonio Delgado*, Vicente Ismael Águeda, María Ángeles Uguina, Álvaro García,

Jorge Matarredona, Ruben Moral
