Improvement of separation performance by fluid motion in the membrane module with a helical baffle

Takaaki Akagi, Takafumi Horie, Hayato Masuda, Keigo Matsuda, Hideyuki Matsumoto, Naoto Ohmura, Yushi Hirata

PII: S1383-5866(16)31533-7

DOI: <http://dx.doi.org/10.1016/j.seppur.2017.07.012>

Reference: SEPPUR 13869

To appear in: *Separation and Purification Technology*

Received Date: 25 September 2016

Revised Date: 9 June 2017

Accepted Date: 6 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title: Improvement of separation performance by fluid motion in the membrane module with
a helical baffle**

Authors: Takaaki Akagi^a, Takafumi Horie^{a, b, *}, Hayato Masuda^c, Keigo Matsuda^d, Hideyuki
Matsumoto^e, Naoto Ohmura^a, Yushi Hirata^f
