Experimental and Simulation of a Novel Hydrocyclone-Tubular Membrane as Overflow Pipe

Chu-Chiao Wang, Rome-Ming Wu

PII: S1383-5866(16)31481-2

DOI: <http://dx.doi.org/10.1016/j.seppur.2017.04.034>

Reference: SEPPUR 13696

To appear in: *Separation and Purification Technology*

Received Date: 24 August 2016

Revised Date: 7 April 2017

Accepted Date: 23 April 2017

Please cite this article as: C-C. Wang, R-M. Wu, Experimental and Simulation of a Novel Hydrocyclone-Tubular Membrane as Overflow Pipe, *Separation and Purification Technology* (2017), doi: <http://dx.doi.org/10.1016/j.seppur.2017.04.034>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Experimental and Simulation of a Novel Hydrocyclone-Tubular Membrane as
Overflow Pipe**
