

## Accepted Manuscript

A novel method for removal of Cr(VI) using polypyrrole magnetic nanocomposite in the presence of unsteady magnetic fields

Uyiosa Osagie Aigbe, Raghunath Das, Wei Hua Ho, Vallabhapurapu Srinivasu, Arjun Maity

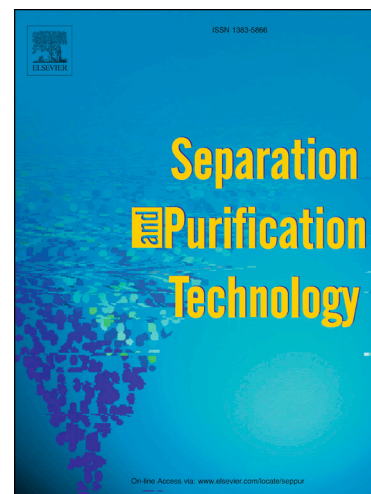

PII: S1383-5866(17)32808-3  
DOI: <https://doi.org/10.1016/j.seppur.2017.11.057>  
Reference: SEPPUR 14213

To appear in: *Separation and Purification Technology*

Received Date: 29 August 2017  
Revised Date: 13 November 2017  
Accepted Date: 20 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **A novel method for removal of Cr(VI) using polypyrrole magnetic nanocomposite in the presence of unsteady magnetic fields**
