

## Accepted Manuscript

Novel dense skin hollow fiber membrane contactor based process for CO<sub>2</sub> removal from raw biogas using water as absorbent

Bouchra Belaissaoui, Eric Favre

PII: S1383-5866(17)33243-4

DOI: <https://doi.org/10.1016/j.seppur.2017.10.060>

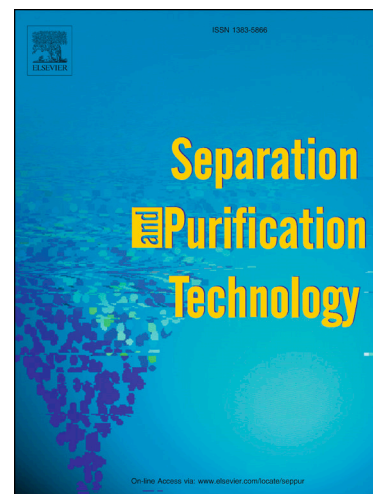

Reference: SEPPUR 14142

To appear in: *Separation and Purification Technology*

Received Date: 4 October 2017

Revised Date: 27 October 2017

Accepted Date: 27 October 2017

Please cite this article as: B. Belaissaoui, E. Favre, Novel dense skin hollow fiber membrane contactor based process for CO<sub>2</sub> removal from raw biogas using water as absorbent, *Separation and Purification Technology* (2017), doi: <https://doi.org/10.1016/j.seppur.2017.10.060>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
