Removal of dissolved organic carbon from surface water by anion exchange and adsorption: Bench-scale testing to simulate a two-stage countercurrent process

Katherine C. Graf, David A. Cornwell, Treavor H. Boyer

PII: S1383-5866(13)00712-0

DOI: <http://dx.doi.org/10.1016/j.seppur.2013.12.012>

Reference: SEPPUR 11531

To appear in: *Separation and Purification Technology*

Received Date: 14 August 2013

Revised Date: 15 December 2013

Accepted Date: 16 December 2013

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Removal of dissolved organic carbon from surface water by
anion exchange and adsorption: Bench-scale testing to
simulate a two-stage countercurrent process**
