Experimental Investigation of a Compact Thermal Compressor for an Ammonia-Water Absorption Heat Pump

Marcel A. Staedter, Srinivas Garimella

PII: S1359-4311(18)32045-3
DOI: <https://doi.org/10.1016/j.applthermaleng.2018.07.120>
Reference: ATE 12478

To appear in: *Applied Thermal Engineering*

Received Date: 1 April 2018
Revised Date: 10 July 2018
Accepted Date: 24 July 2018

Please cite this article as: M.A. Staedter, S. Garimella, Experimental Investigation of a Compact Thermal Compressor for an Ammonia-Water Absorption Heat Pump, *Applied Thermal Engineering* (2018), doi: <https://doi.org/10.1016/j.applthermaleng.2018.07.120>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Experimental Investigation of a Compact Thermal Compressor for an Ammonia-Water Absorption Heat Pump

Marcel A. Staedter and Srinivas Garimella*
