Accepted Manuscript

Experimental Investigation on the Heat Transfer Enhancement in a Novel Latent Heat Thermal Storage Equipment

Yang Liu, Jianguo Duan, Xiufen He, Yaxiong Wang

PII: S1359-4311(17)38093-6

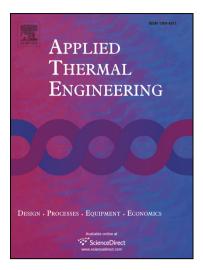

DOI: https://doi.org/10.1016/j.applthermaleng.2018.07.009

Reference: ATE 12367

To appear in: Applied Thermal Engineering

Received Date: 21 December 2017

Revised Date: 20 June 2018 Accepted Date: 3 July 2018

Please cite this article as: Y. Liu, J. Duan, X. He, Y. Wang, Experimental Investigation on the Heat Transfer Enhancement in a Novel Latent Heat Thermal Storage Equipment, *Applied Thermal Engineering* (2018), doi: https://doi.org/10.1016/j.applthermaleng.2018.07.009

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
