

## Accepted Manuscript

Thermal stability of granite for high temperature thermal energy storage in concentrating solar power plants

Baiyi Li, Feng Ju

PII: S1359-4311(17)36911-9  
DOI: <https://doi.org/10.1016/j.applthermaleng.2018.04.071>  
Reference: ATE 12068

To appear in: *Applied Thermal Engineering*

Received Date: 29 October 2017  
Revised Date: 29 March 2018  
Accepted Date: 15 April 2018

Please cite this article as: B. Li, F. Ju, Thermal stability of granite for high temperature thermal energy storage in concentrating solar power plants, *Applied Thermal Engineering* (2018), doi: <https://doi.org/10.1016/j.applthermaleng.2018.04.071>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thermal stability of granite for high temperature thermal energy storage in  
concentrating solar power plants
