Research Paper

Challenges in Predicting Steam-Side Pressure Drop and Heat Transfer in Air-Cooled Power Plant Condensers

Allison J. Mahvi, Alexander S. Rattner, Jennifer Lin, Srinivas Garimella

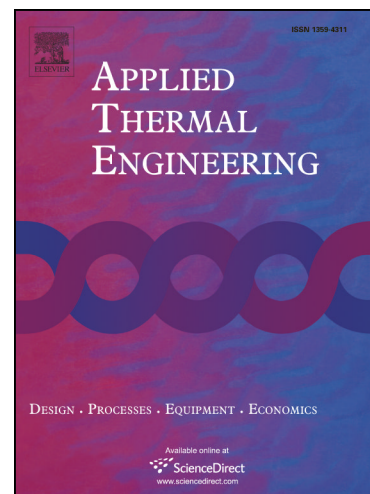

PII: S1359-4311(17)36665-6
DOI: <https://doi.org/10.1016/j.applthermaleng.2018.01.008>
Reference: ATE 11662

To appear in: *Applied Thermal Engineering*

Received Date: 17 October 2017
Revised Date: 23 December 2017
Accepted Date: 2 January 2018

Please cite this article as: A.J. Mahvi, A.S. Rattner, J. Lin, S. Garimella, Challenges in Predicting Steam-Side Pressure Drop and Heat Transfer in Air-Cooled Power Plant Condensers, *Applied Thermal Engineering* (2018), doi: <https://doi.org/10.1016/j.applthermaleng.2018.01.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Challenges in Predicting Steam-Side Pressure Drop and Heat Transfer in Air-Cooled Power Plant Condensers
