Research Paper

Effect of blockage ratio on backlayering length of thermal smoke flow in a longitudinally ventilated tunnel

Na Meng, Xiaomei Liu, Xiao Li, Beibei Liu

PII: S1359-4311(17)36175-6

DOI: <https://doi.org/10.1016/j.applthermaleng.2017.12.064>

Reference: ATE 11585

To appear in: *Applied Thermal Engineering*

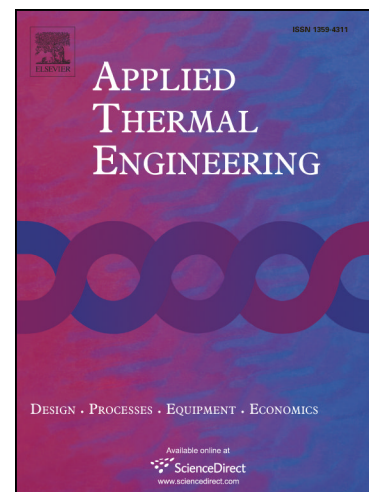

Received Date: 24 September 2017

Revised Date: 5 December 2017

Accepted Date: 16 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of blockage ratio on backlayering length of thermal smoke flow in a longitudinally ventilated tunnel
