Effect of heat and mass transfer on the combustion stability in catalytic micro-combustors

Junjie Chen, Longfei Yan, Wenya Song, Deguang Xu

PII: S1359-4311(17)36056-8

DOI: <https://doi.org/10.1016/j.applthermaleng.2017.12.059>

Reference: ATE 11580

To appear in: *Applied Thermal Engineering*

Received Date: 19 September 2017

Revised Date: 26 November 2017

Accepted Date: 16 December 2017

Please cite this article as: J. Chen, L. Yan, W. Song, D. Xu, Effect of heat and mass transfer on the combustion stability in catalytic micro-combustors, *Applied Thermal Engineering* (2017), doi: <https://doi.org/10.1016/j.applthermaleng.2017.12.059>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of heat and mass transfer on the combustion stability in catalytic micro-combustors

Junjie Chen*, Longfei Yan, Wenya Song, Deguang Xu
