

Accepted Manuscript

A performance evaluation index for two-phase thermosyphon loop used in HVAC systems

Penglei Zhang, Wenxing Shi, Xianting Li, Baolong Wang, Guohui Zhang

PII: S1359-4311(17)36579-1
DOI: <https://doi.org/10.1016/j.applthermaleng.2017.12.056>
Reference: ATE 11577

To appear in: *Applied Thermal Engineering*

Received Date: 13 October 2017
Revised Date: 7 December 2017
Accepted Date: 16 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Manuscript prepared for Applied Thermal Engineering

A performance evaluation index for two-phase thermosyphon loop used in HVAC systems
