Experimental and theoretical study of a novel loop heat pipe

Kai Zhu, Xueqiang Li, Hailong Li, Xiaoqing Chen, Yabo Wang

PII: S1359-4311(17)34153-4

DOI: <https://doi.org/10.1016/j.applthermaleng.2017.11.020>

Reference: ATE 11390

To appear in: *Applied Thermal Engineering*

Received Date: 19 June 2017

Revised Date: 27 September 2017

Accepted Date: 4 November 2017

Please cite this article as: K. Zhu, X. Li, H. Li, X. Chen, Y. Wang, Experimental and theoretical study of a novel loop heat pipe, *Applied Thermal Engineering* (2017), doi: <https://doi.org/10.1016/j.applthermaleng.2017.11.020>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
