Research Paper

A refrigerant charge fault detection method for variable refrigerant flow (VRF) air-conditioning systems

Jiangyan Liu, Yunpeng Hu, Huanxin Chen, Jiangyu Wang, Guannan Li, Wenju Hu

PII: S1359-4311(16)30455-0

DOI: <http://dx.doi.org/10.1016/j.applthermaleng.2016.03.147>

Reference: ATE 8015

To appear in: *Applied Thermal Engineering*

Received Date: 25 December 2015

Accepted Date: 28 March 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A refrigerant charge fault detection method for variable refrigerant
flow (VRF) air-conditioning systems**
