

## Accepted Manuscript

Spatial orientation effects on flow boiling performances in open microchannels heat sink configuration under a wide range of mass fluxes

K.R. Balasubramanian, R. Ajith Krishnan, S. Suresh

PII: S0894-1777(18)30568-5

DOI: <https://doi.org/10.1016/j.expthermflusci.2018.08.007>

Reference: ETF 9573

To appear in: *Experimental Thermal and Fluid Science*

Received Date: 12 April 2018

Revised Date: 28 July 2018

Accepted Date: 7 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Spatial orientation effects on flow boiling performances in open microchannels heat sink configuration under a wide range of mass fluxes.**
