

## Accepted Manuscript

Soot concentration and primary particle size in swirl-stabilized non-premixed turbulent flames of ethylene and air

Sandipan Chatterjee, Ömer L. Gülder

PII: S0894-1777(18)30092-X

DOI: <https://doi.org/10.1016/j.expthermflusci.2018.01.035>

Reference: ETF 9358

To appear in: *Experimental Thermal and Fluid Science*

Received Date: 28 January 2018

Accepted Date: 29 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Soot concentration and primary particle size in swirl-stabilized non-premixed turbulent flames of ethylene and air**
