Velocity fields and mixing properties of swirling double-concentric jets using two separated circular disks as center bodies

Minh Duc Le, Ching Min Hsu, Rong Fung Huang

PII: S0894-1777(17)30409-0

DOI: <https://doi.org/10.1016/j.expthermflusci.2017.12.020>

Reference: ETF 9310

To appear in: *Experimental Thermal and Fluid Science*

Received Date: 10 August 2017

Revised Date: 28 October 2017

Accepted Date: 22 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Velocity fields and mixing properties of swirling double-concentric jets
using two separated circular disks as center bodies**
