Review of Laboratory Swirl Burners and Experiments for Model Validation

Yasir M. Al-Abdeli, Assaad R. Masri

PII: S0894-1777(15)00200-9

DOI: <http://dx.doi.org/10.1016/j.expthermflusci.2015.07.023>

Reference: ETF 8533

To appear in: *Experimental Thermal and Fluid Science*

Received Date: 1 May 2015

Revised Date: 31 July 2015

Accepted Date: 31 July 2015

Please cite this article as: Y.M. Al-Abdeli, A.R. Masri, Review of Laboratory Swirl Burners and Experiments for Model Validation, *Experimental Thermal and Fluid Science* (2015), doi: <http://dx.doi.org/10.1016/j.expthermflusci.2015.07.023>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A review paper for publication in
Experimental Thermal and Fluid Science

Review of Laboratory Swirl Burners and Experiments for Model Validation

Yasir M. Al-Abdeli¹ and Assaad R. Masri*²

¹School of Engineering,

Edith Cowan University, Western Australia

²School of Aerospace, Mechanical and Mechatronic Engineering,
The University of Sydney, New South Wales

Keywords Swirl flames; turbulent; benchmark; experiments; burners; model validation of swirling flows

Word Count 15838
