Endogenous influences on anammox and sulfocompound-oxidizing autotrophic denitrification coupling system (A/SAD) and dynamic operating strategy

Xinbo Sun, Lingfeng Du, Yuqian Hou, Shaoju Cheng, Xuxiang Zhang, Bo Liu

PII: S0960-8524(18)30278-5
DOI: <https://doi.org/10.1016/j.biortech.2018.02.081>
Reference: BITE 19591

To appear in: *Bioresource Technology*

Received Date: 6 January 2018
Revised Date: 15 February 2018
Accepted Date: 19 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Endogenous influences on anammox and sulfocompound-oxidizing autotrophic**
2 **denitrification coupling system (A/SAD) and dynamic operating strategy**
