Short Communication

Cascade hydrolysis and fermentation of corn stover for production of high titer gluconic and xylonic acids

Weiliang Hou, Maofen Zhang, Jie Bao

PII: S0960-8524(18)30804-6

DOI: <https://doi.org/10.1016/j.biortech.2018.06.025>

Reference: BITE 20042

To appear in: *Bioresource Technology*

Received Date: 4 May 2018

Revised Date: 8 June 2018

Accepted Date: 10 June 2018

Please cite this article as: Hou, W., Zhang, M., Bao, J., Cascade hydrolysis and fermentation of corn stover for production of high titer gluconic and xylonic acids, *Bioresource Technology* (2018), doi: <https://doi.org/10.1016/j.biortech.2018.06.025>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Original Short Communication manuscript submitted to Bioresource Technology
