Controlling the selectivity to chemicals from catalytic depolymerization of kraft lignin with In-situ H₂

Ligang Luo, Jing Yang, Guodong Yao, Fangming Jin

PII: S0960-8524(18)30410-3

DOI: <https://doi.org/10.1016/j.biortech.2018.03.062>

Reference: BITE 19701

To appear in: *Bioresource Technology*

Received Date: 15 January 2018

Revised Date: 7 March 2018

Accepted Date: 9 March 2018

Please cite this article as: Luo, L., Yang, J., Yao, G., Jin, F., Controlling the selectivity to chemicals from catalytic depolymerization of kraft lignin with In-situ H₂, *Bioresource Technology* (2018), doi: <https://doi.org/10.1016/j.biortech.2018.03.062>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Controlling the selectivity to chemicals from catalytic depolymerization of kraft lignin with In-situ H₂
