

## Accepted Manuscript

Autotrophic and heterotrophic nitrification-anoxic denitrification dominated the anoxic/oxic sewage treatment process during optimization for higher loading rate and energy savings

Xueyu Zhang, Shaokui Zheng, Hangyu Zhang, Shoupeng Duan

PII: S0960-8524(18)30636-9

DOI: <https://doi.org/10.1016/j.biortech.2018.04.113>

Reference: BITE 19893

To appear in: *Bioresource Technology*

Received Date: 29 March 2018

Revised Date: 22 April 2018

Accepted Date: 27 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
