Kinetic Modelling of methane production during Bio-electrolysis from anaerobic co-digestion of sewage sludge and food waste

Kalp Bhusan Prajapati, Rajesh Singh

PII: S0960-8524(18)30696-5
DOI: <https://doi.org/10.1016/j.biortech.2018.05.036>
Reference: BITE 19942

To appear in: *Bioresource Technology*

Received Date: 7 April 2018
Revised Date: 8 May 2018
Accepted Date: 9 May 2018

Please cite this article as: Prajapati, K.B., Singh, R., Kinetic Modelling of methane production during Bio-electrolysis from anaerobic co-digestion of sewage sludge and food waste, *Bioresource Technology* (2018), doi: <https://doi.org/10.1016/j.biortech.2018.05.036>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Kinetic Modelling of methane production during Bio-electrolysis from anaerobic co-digestion of sewage sludge and food waste
