Novel insight of carotenoid and lipid biosynthesis and their roles in storage carbon metabolism in *Chlamydomonas reinhardtii*

Han Sun, Xuemei Mao, Tao Wu, Yuanyuan Ren, Feng Chen, Bin Liu

PII: S0960-8524(18)30695-3

DOI: <https://doi.org/10.1016/j.biortech.2018.05.035>

Reference: BITE 19941

To appear in: *Bioresource Technology*

Received Date: 1 April 2018

Revised Date: 8 May 2018

Accepted Date: 9 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Novel insight of carotenoid and lipid biosynthesis and their roles in storage

carbon metabolism in *Chlamydomonas reinhardtii*
