

## Accepted Manuscript

Recyclable zero-valent iron activating peroxydisulfate synchronously combined with thermal treatment enhances sludge dewaterability by altering physicochemical and biological properties

Yifu Li, Xingzhong Yuan, Dongbo Wang, Hou Wang, Zhibin Wu, Longbo Jiang, Dan Mo, Guojing Yang, Rengeng Guan, Guangming Zeng

PII: S0960-8524(18)30563-7  
DOI: <https://doi.org/10.1016/j.biortech.2018.04.050>  
Reference: BITE 19830

To appear in: *Bioresource Technology*

Received Date: 23 February 2018  
Revised Date: 9 April 2018  
Accepted Date: 12 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Recyclable zero-valent iron activating peroxymonosulfate**  
2 **synchronously combined with thermal treatment enhances sludge**  
3 **dewaterability by altering physicochemical and biological properties**
