Hydrothermal processing as pretreatment for efficient production of ethanol and biogas from municipal solid waste

Peyman Mahmoodi, Keikhosro Karimi, Mohammad J. Taherzadeh

PII: S0960-8524(18)30477-2
DOI: <https://doi.org/10.1016/j.biortech.2018.03.115>
Reference: BITE 19754

To appear in: *Bioresource Technology*

Received Date: 9 February 2018
Revised Date: 25 March 2018
Accepted Date: 26 March 2018

Please cite this article as: Mahmoodi, P., Karimi, K., Taherzadeh, M.J., Hydrothermal processing as pretreatment for efficient production of ethanol and biogas from municipal solid waste, *Bioresource Technology* (2018), doi: <https://doi.org/10.1016/j.biortech.2018.03.115>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Hydrothermal processing as pretreatment for efficient production of ethanol**
2 **and biogas from municipal solid waste**
