Hydrogen sulfide formation control and microbial competition in batch anaerobic digestion of slaughterhouse wastewater sludge: Effect of initial sludge pH

Li Yan, Jie Ye, Panyue Zhang, Dong Xu, Yan Wu, Jianbo Liu, Haibo Zhang, Wei Fang, Bei Wang, Guangming Zeng

PII: S0960-8524(18)30349-3
DOI: <https://doi.org/10.1016/j.biortech.2018.03.011>
Reference: BITE 19650

To appear in: *Bioresource Technology*

Received Date: 23 January 2018
Revised Date: 26 February 2018
Accepted Date: 1 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Hydrogen sulfide formation control and microbial competition in batch anaerobic digestion of slaughterhouse wastewater sludge: Effect of initial sludge pH
