Review

Use of microalgae to recycle nutrients in aqueous phase derived from hydrothermal liquefaction process

Lijian Leng, Jun Li, Zhiyou Wen, Wenguang Zhou

PII: S0960-8524(18)30143-3

DOI: <https://doi.org/10.1016/j.biortech.2018.01.121>

Reference: BITE 19478

To appear in: *Bioresource Technology*

Received Date: 18 December 2017

Revised Date: 22 January 2018

Accepted Date: 24 January 2018

Please cite this article as: Leng, L., Li, J., Wen, Z., Zhou, W., Use of microalgae to recycle nutrients in aqueous phase derived from hydrothermal liquefaction process, *Bioresource Technology* (2018), doi: <https://doi.org/10.1016/j.biortech.2018.01.121>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Use of microalgae to recycle nutrients in aqueous phase
derived from hydrothermal liquefaction process**
