Effective Algal Harvesting by Using Mesh Membrane for Enhanced Energy Recovery in an Innovative Integrated Photobioelectrochemical System

Shuai Luo, Pranav Sai Shanker Sampara, Zhen He

PII: S0960-8524(18)30001-4
DOI: <https://doi.org/10.1016/j.biortech.2018.01.001>
Reference: BITE 19358

To appear in: *Bioresource Technology*

Received Date: 28 November 2017
Revised Date: 29 December 2017
Accepted Date: 1 January 2018

Please cite this article as: Luo, S., Sai Shanker Sampara, P., He, Z., Effective Algal Harvesting by Using Mesh Membrane for Enhanced Energy Recovery in an Innovative Integrated Photobioelectrochemical System, *Bioresource Technology* (2018), doi: <https://doi.org/10.1016/j.biortech.2018.01.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effective Algal Harvesting by Using Mesh Membrane for
Enhanced Energy Recovery in an Innovative Integrated
Photobioelectrochemical System**
