

## Accepted Manuscript

The transformation from anammox granules to deammonification granules in micro-aerobic system by facilitating indigenous ammonia oxidizing bacteria

Xiaolong Wang, Dawen Gao

PII: S0960-8524(17)32048-5  
DOI: <https://doi.org/10.1016/j.biortech.2017.11.046>  
Reference: BITE 19196

To appear in: *Bioresource Technology*

Received Date: 29 September 2017  
Revised Date: 14 November 2017  
Accepted Date: 15 November 2017

Please cite this article as: Wang, X., Gao, D., The transformation from anammox granules to deammonification granules in micro-aerobic system by facilitating indigenous ammonia oxidizing bacteria, *Bioresource Technology* (2017), doi: <https://doi.org/10.1016/j.biortech.2017.11.046>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1     **The transformation from anammox granules to deammonification granules in**  
2     **micro-aerobic system by facilitating indigenous ammonia oxidizing bacteria**
