Effect of salinity on removal performance and activated sludge characteristics in sequencing batch reactors

Yujuan Chen, Huijun He, Hongyu Liu, Huiru Li, Guangming Zeng, Xing Xia, Chunping Yang

PII: S0960-8524(17)31923-5
DOI: <https://doi.org/10.1016/j.biortech.2017.10.092>
Reference: BITE 19133

To appear in: *Bioresource Technology*

Received Date: 11 October 2017
Revised Date: 27 October 2017
Accepted Date: 28 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effect of salinity on removal performance and activated sludge
characteristics in sequencing batch reactors**
