Enzymatic hydrolysis of cactus pear varieties with high solids loading for bioethanol production

Bárbara Ribeiro Alves Alencar, Emmanuel Damilano Dutra, Everardo Valadares de Sá Barretto Sampaio, Rômulo Simões Cezar Menezes, Marcos Antônio Morais Jr

PII: S0960-8524(17)32016-3
DOI: <https://doi.org/10.1016/j.biortech.2017.11.042>
Reference: BITE 19192

To appear in: *Bioresource Technology*

Received Date: 5 October 2017
Revised Date: 7 November 2017
Accepted Date: 13 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Enzymatic hydrolysis of cactus pear varieties with high solids loading for
bioethanol production**
