

Accepted Manuscript

Process Simulation and Economic Assessment of Hydrothermal Pretreatment and Enzymatic Hydrolysis of Multi-feedstock Lignocellulose - Separate vs Combined Processing

Muhammad Tahir Ashraf, Jens Ejbye Schmidt

PII: S0960-8524(17)31919-3

DOI: <https://doi.org/10.1016/j.biortech.2017.10.088>

Reference: BITE 19129

To appear in: *Bioresource Technology*

Received Date: 13 September 2017

Revised Date: 25 October 2017

Accepted Date: 26 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Process Simulation and Economic Assessment of Hydrothermal
Pretreatment and Enzymatic Hydrolysis of Multi-feedstock
Lignocellulose — Separate vs Combined Processing**
